## **3Q Proactive Event: Hazard Identification and Risk Assessment**

**Week 10: Review and discuss the changes we've made in our behaviors.**

**September 20, 2010**

# Week 10. Deliverables

- Today: The group will discuss what we've learned from the last nine weeks.
- At the end of the 3<sup>rd</sup> Quarter:
  - 1) Increase individual and group competency in Hazard Identification and Risk Assessment,
  - 2) Reinforce the need for teamwork (or relationships) to develop dialogue (or communication skills) around risk assessment,
  - 3) Understand how we control our environment through our behaviors. Introduce accountability into the equation. Are you doing what you say you're going to do?

# Discussion

How has your understanding of Risk Assessment, Hazard Identification and Personal Accountability -

- Impacted someone in your life? or,
- Changed how you approach your daily activities?

# Take 5 to Recognize

Proactive Engagement takes courage. . . . .

## Take 5 to Recognize

During your activities, what were the conversations which stimulated engagement and had a positive impact on our understanding and awareness of risk?

Ask each participant to identify what they “valued most” from the conversation and have them recognize the individual for making this contribution.

People deserve to hear they are appreciated!
